

MUI templates

What is MUI templates

UI templates are ready for use UI designs

Dashboards : admin , ...

Page : landing , sign in , sign out , blog, error ,

E-commerce

...

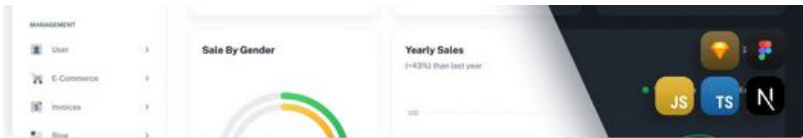

All templates are composed of components : button , table , grid , and are responsive (did not checked it but seems logical)

Motivation for MUI templates

In general template can save you time and provide consistency and attractive UI designs

You can get ideas from MUI template and implement yourself
